F3 Naperville is a part of a national network of free, peer-led workouts for men; it’s mission is to cultivate leadership and support our communities. We have a solution to help those currently in need who are homebound and can't get groceries or fulfill basic necessities due to the COVID-19 virus and subsequent safety measures.

We’ve created a free, personalized, homebound concierge service to grocery shop, pickup prescriptions, and provide other services for those in need in our communities.
