

Lupus Society of Illinois

LUPUS WARRIOR WEDNESDAY

November 2, 2022

My name is Dianne Moriarty. I have a very personal connection to Lupus. Our Mother suffered from Lupus for over 30 years, but luckily lived to be 92 years old. When she was originally diagnosed, she was told she would live for only ten more years. We were so fortunate that was not the case, and she was active on the Lupus Board for many years. As she got older, she asked me to get involved with the Lupus Board.

I have been involved on the Board for the past 15 years, most recently as secretary for the Lupus Society of IL. We are trying to find a cure and help Lupus patients have the educational resources and guidance to help them on their health journey here in Illinois.
