

Lupus Society of Illinois

LUPUS WARRIOR WEDNESDAY

March 15, 2023

My name is Alisa Stevens, a Lupus thriver , and your United States of America's Mrs. Illinois 2023. I was diagnosed with SLE in December of 2004 and this journey has been filled with many ups and downs but I am still standing strong! Being connected to LSI as a volunteer has connected me with so many wonderful people and allowed me to not be afraid to share my story. So many times I would feel alone but I have found a supportive community. I will continue to support and educate people about Lupus throughout my reign.

I want to show the world that I am a woman living fearlessly that just happens to have Lupus. The best is yet to come!!!!
