

## Lupus Society of Illinois

# LUPUS WARRIOR WEDNESDAY

June 22, 2022

I am the youngest of 5 children and have never married nor birthed any children. Currently, I am a full-time Office Supervisor for a child welfare office. I regularly attend and am active in my church as well as in my Sorority. As the sixth member of my family to have a Lupus diagnosis, I support LSI to help bring awareness to this disease in hopes that there will one day be a cure. To help in educating the community, as there are people being diagnosed every day and sometimes they are the first or may be the only member of their family to do so. To help people understand that even though I may not look sick on the outside, there is a war going on the inside.
