

Lupus Society of Illinois

LUPUS WARRIOR WEDNESDAY

June 29, 2022

I have been living with lupus for 30+ years.

I currently facilitate a lupus support group on the south side of Chicago. For many years I have worked to increase lupus awareness, and advocate for new legislation and increased research and funding in an effort to improve treatments, supports and services for lupus patients.

Lupus awareness, advocacy and support is important to me because I know, understand and LIVE the challenge of lupus everyday.
